To: Chu Rebecca;

I don't believe we ever received an official approval from EPA for Farallon or Anchor. Let me know if you find anything. Thanks.

Understandable. The contractors performing the removal action work. I will have to check about the past approvals for the earlier AOC. I am guessing you also already had approvals for both Farallon and Anchor under the earlier AOC with EMJ and EPA. Correct?

I think I may have confused things and possibly misinterpreted the AOC text. I meant that I sent a letter with Farallon's quals for a prior EMJ AOC. Quals for PPM have not previously been submitted. As I read it, I was thinking that I needed to provide you with a quals letter for the consultants and then a quals

letter for the contractor. After re-reading, I think it should be for the contractor. Let me know what you think though.

Yes. Was that for a different project? If you have the name of the project or AOC, it would be helpful. And this is for PPM?

Thanks for your email Becky. I will provide you the information by what I assume you meant is May 9, 2014. One question - I previously provided the contractor quals to EPA but it was under a different AOC. Does that need to be resubmitted?

Amy

As I am reviewing the RAWP and updating my files, I am not finding any record of you notifying EPA of the name and qualification of the contract performing the work. If I have missed it, please let me know.

Section VIII(10) of the AOC states that EMJ is:

required to notify EPA of the name(s) and qualifications of the contractor(s) within 10 days of the effective date. Respondent shall also notify EPA in writing of the name(s) and qualification(s) of any other contractor(s) or subcontractor(s) retained to perform work at least 7 days prior to commencement of such Work. EPA retains the right to disapprove of any or all the contractors and/or subcontractors retained by Respondent. If EPA disapproves of a selected contractor in writing, Respondent shall retain a different contractor and shall notify EPA of that contractor's name and qualifications within 30 days of EPA's disapproval.

Please provide me with the qualifications that Pacific Pile and Marine has for performing the Removal Action. I am looking for a list of prior environmental projects, and those that involve working within contaminated sites. Also include qualification of any subcontractors associated with the removal action, including operation of the water quality treatment system, transporting the materials off-site, etc. I will need this material by the end of next week, COB 4/9/14.

Thanks

Becky
